

## **Mobile Phone Muster**

The Hills Community Aid and Information Service inc. is now a collection point to drop off your old mobile phone.

Simply drop off your unwanted mobile phone, no matter its age or condition in the box at the front door 390 Windsor Road Baulkham Hills (the building behind the Bull and Bush carpark)

It is estimated that there are 16 million old mobile phones just lying around in office and home drawers in Australia alone.

These phones contain toxins that must not find their way into landfill sites. The mobile phones are recycled to the highest standards in accordance with the International standards organisation ISO 14001
